

Appl. No. 10/018,390
Amdt. dated December 12, 2003
Reply to Office Action of July 15, 2003

IN THE DRAWINGS:

The drawings are objected to because the assertedly fail to correlate with the description of the drawings on page 10. The applicants have amended the specification to include a "Brief Description of the Drawings," which correlates with the drawing. Further, the Office asserts that "immunisation" should properly read "immunization." The applicants note that the two spellings represent the British and the American spellings of the same word. Thus, the American spelling is properly "immunization," but the British spelling is properly "immunisation."

Thus, the applicants submit that FIG. 1 is correct, even with the British spelling, in the current form. Should the Office maintain the desire to have immunization of FIG. 1 spelled in the American form, the applicants will amend FIG. 1 or authorize an Examiner's amendment.
